

Open mobile dispenser with spring-suspended platform for stacking Euro containers.

Dispenser with self-supporting and hygienic design, made of high-quality stainless steel. Enclosed base plate with all-round folded edge. Built on this, an enclosed spring case with two diagonal rectangular tube struts as a support to the base plate. Spring-mounted, enclosed platform with all-round upstand, ball bearing platform guide and two curved longitudinal bars made of rectangular tube to reinforce the underside. Consistent dispensing height due to manually adjustable system of stainless steel tension springs. Four solid polymer corner bumpers, including two on the top of the body with integrated, ergonomically designed push handles, for all-round collision protection of the device and walls. Mobile dispenser with 4 swivel castors, including 2 with total brakes, ø 125 mm, secured with multiple bolted screw-on panels.

The Hupfer ERGO general purpose trolley BD/O EB 60-40 FM features additional reinforcements in the spring case/base plate area and on the bottom of the stacking platform, while two push handles installed on the corners of the unit ensure optimal handling properties. The ergonomically shaped push handles also guarantee effective protection against injuries to the hands.
