

Mobile basket dispenser in self-supporting and hygienic design, made of high-quality stainless steel. Features closed, smooth outer housing with open stacking compartment. Includes removable basket made of plastic-coated stainless steel as stacking platform with ball bearing platform guide, can be included in stacking capacity.

Offers a consistent output height thanks to manually adjustable stainless steel tension spring system. Easy cleaning of stacking compartment from above and via a cleaning opening in the base plate. Includes four massive polymer corner bumpers, of which two at the upper corners of the structure that serve as bumpers and protect the equipment on all sides as well as building-side walls from being damaged, with integrated, ergonomically-shaped push bars. Dispenser runs on 4 x 125mm diameter swivel casters, 2 of which have wheel locking brakes, fastened by means of screw-on plates and several screws.

The Hupfer mobile basket dispenser KO-50-50 has two push handles installed on the corners of the unit to ensure optimal handling properties. The ergonomically shaped push handles also guarantee effective protection against injuries to the operators hands. The installation height of 900 mm is the standard working height in food distribution. The guide basket, which comes as series standard, is the same as the non-rusting, stainless steel crockery baskets available as an optional accessory, and increases the stacking capacity by approximately 20 %. Baskets and cover not included.

### DIMENSIONS

590 W x 800 D x 900 H mm
