

G160A

MODULAR ICE FLAKE MACHINE

Brema's G range of modular ice flaker heads produces granular ice flakes which automatically drop into a separate Brema storage bin.

The Brema G160A is a modular ice flaking machine that produces 160kg of granular ice per 24 hours and is designed to fit on top of a range of Brema storage bins with differing capacities from 110kg to 240kg.

Granular ice is ideal for exhibiting and presenting foods as well as for use in medical industries. The ice has a fast and efficient refrigerating effect and is easy to handle and dose.
