

Cambro now offers 3 shelving solutions that will hold up to the tough demands of commercial foodservice operations.

All 3 Cambro shelving options offer ...

### Flexibility - Multiple configuration options

- All three shelving lines can be configured to fit any size area.
  - Removable shelf plates increase food safety and reduce cross-contamination.
  - Shared post design offers cost savings - 2 units can attach using a common post with no loss of weight bearing capacity for better space utilization.
  - Shelving configurations include - single unit, add on unit, corner and U shape unit

### HACCP compliant - Hygienic design

- HACCP compliance is easy with easy to clean removable shelves and no rust or chipped paint.
- Shelving is weldless.

### Easy to assemble, clean and adjust

- Assembles with only the use of a rubber or plastic mallet.
- Easy to clean, shelf plates can be removed, washed individually or placed in an open end Camrack® OETR314 and washed in a commercial dishwasher.
- Features a smooth non-porous surface that quickly wipes clean; spills clean up quickly and easily, reducing the risk of cross-contamination.

### Rust Free, strong and durable

- Covered by a lifetime warranty against rust and corrosion.
- Adapt to all areas of operation (wet, dry, cold or hot environments). Withstands temperatures of -38°C to 88°C.

## Selecting the right Cambro shelving to meet your needs

VALUE RANGE →

### ORIGINAL CAMSHELVING®

#### TARGET CUSTOMERS/APPLICATIONS:

- Hospitals, Aged Care and 4-5 Star establishments mainly for coolrooms and freezers

#### KEY FEATURES:

- Camshelving® is very robust and has excellent cross-stabilization.
- Very easy to assemble: with fewer components and molded-in dovetails, it takes less time to install. This makes a difference on larger projects.
- Removable shelf plates with built-in antimicrobial technology.
- Mobile and high density system options
- HACCP compliant antimicrobial Camguard® embedded into removable shelf plates.

#### STATIONARY UNITS

Sizes: **610mm**, 760mm, 910mm, 1070mm, 1220mm, 1380mm, 1530mm, 1830mm  
 Width: 360mm, 460mm, 540mm, 610mm  
 Height: **820mm**, **1420mm**, 1630mm, 1830mm, 2140mm  
 Corner Connector: Yes

#### WEIGHT BEARING CAPACITY

Up to 1220mm 363kg per shelf  
 1380mm – 1830mm 274kg per shelf  
 610mm – 1220mm corner unit 180kg per shelf  
 Dunnage Stand increases 454kg on bottom shelf.

#### DIFFERENCES

- No 1980mm length

### ELEMENTS SERIES

#### TARGET CUSTOMERS/APPLICATIONS:

- Dry-Storage, Warewashing, Janitorial Supplies, Linen
- Hotels/Resorts, QSR, Casual Dining, Defence, TAFE's/Universities, Private Industry, Prisons, Stadiums, Supermarkets, Schools, Restaurants

#### KEY FEATURES:

- Composite material stronger than wire or aluminium
- Memory feature using composite material
- Requires a little more time to install and includes more components, but still very easy to assemble compared to other shelving lines.
- HACCP compliant antimicrobial Camguard® embedded into removable shelf plates.
- Mobile options
- Provides the advantage of being able to adjust the bottom connector to increase lower shelf height

#### STATIONARY UNITS
