

Gastronorm trolley in high version for storing GN 1/1 containers and associated partition elements.

Trolley with one compartment in robust, self-supporting and hygienic design, made of high-quality 25 x 25 mm stainless steel, suitable for inserting into one another with other trolleys of this type. 18 pairs of welded shelf rails at distances of 75 mm, with push-through and tilt protections on both sides as per DIN EN 18867-2. 4 polyethylene disc bumpers serve as bumpers and protect trolley on all sides as well as building-side walls from being damaged. Trolley runs on 4 swivel casters of which 2 with total locks, Ø 125 mm, with pin fastening.

The Hupfer gastronorm trolley ERWG-18 has the lowest empty weight in comparison to other products and therefore provides outstanding handling properties, while its rail spacing of 75 mm gives it a 50% greater capacity (when GN containers without lids with a depth of 150 mm are placed in it).

DIMENSIONS

739D x 659W x 1686H mm

TECHNICAL DATA

Capacity: 36 × GN 1/1

Modular dimension: 75 mm

Insertion type: Wide

Rectangular tube frame: 25 × 25 mm

Load capacity: 180 kg

Castors: 4 swivel castors, 2 with lock, Ø 125 mm

Main construction: Open

Design: Can be pushed into each other vertically

Weight: 24 kg
